Panhandle Health District FAMILY AND COMMUNITY HEALTH DIVISION Services

Healthy People in Healthy Communities

**Serving the Citizens of the Five
Northern Counties of Idaho**

PARTIAL LIST OF SERVICES

PHD Services are affordable and are charged on a sliding fee scale based on income and family size.

- **Child Find:** Developmental screening, monitoring and early intervention services for children birth to 36 months. If you have questions about your baby's development, contact the *Child Find Coordinator*.
- **Communicable Disease Information:** Contact the Infection Control Nurse.
- **Family Planning Program:** Confidential services provided. Cost of services is determined using a sliding fee scale based on client income and family size. Health screening for people age 14-55 years include Pap smears, breast exams, screening and/or treatment, education for sexually transmitted infections (STIs), education and counseling on birth control methods and infertility concerns, sterilization applications and referral to community resources. Nurses available for questions Monday-Friday. Appointments are required for Family Planning Clinic services.
- **Infant/Toddler Home Visiting Program:** Referrals made from hospitals, doctors, Health and Welfare, and the community are followed up with home visits by a public health nurse, education and referrals to area resources.
- **HIV and Sexually Transmitted Infection Testing:** STIs and HIV/AIDS exams and testing. Appointments are required. Services are confidential and are provided on a sliding fee scale. Nurses are available to answer questions Monday-Friday, 8:00 a.m.—5:00 p.m.
- **Idaho Care Line:** Dial 2-1-1 for statewide information and referral service for maternal and child health services (translators are available 24 hours per day).
- **Immunizations:** Childhood and adult immunizations are available by appointment. Costs for state-supplied childhood vaccines are determined on a sliding fee scale based on client income and family size. No child will be denied childhood immunizations because they are unable to pay.
 - ◇ **Flu shots:** Normally available from October to December—call your local PHD office for more information.
 - ◇ **Overseas Immunizations:** Available by appointment. Please call your local PHD office for a consultation and appointment. Fees are assessed for travel shots.
 - ◇ **IRIS—Idaho's Immunization Reminder and Information System:** A web-based registry for immunization records. Never lose your shot record again. Accessed only by your physician or school, this confidential service keeps track of your immunizations and reminds you when they are due.

PHD Clinicians provide superior patient care.

- **Pregnancy Testing/Services:** Pregnancy tests are available by appointment and the cost is determined on a sliding fee scale. Pregnancy tests include counseling, education and referral services. Screening is also provided to determine eligibility for the temporary PWC Medicaid card that covers prenatal pregnancy services.
- **Resource Nurse (Helping Hands Medical Access):** General health information and referrals are available by telephone and by appointment. The Helping Hands Medical Access program has vouchers to local physicians for acute health care needs (co-sponsored by Untied Way of Kootenai County).
- **Susan G. Komen Grant:** Funding source for PHD to provide vouchers for free mammograms for women 40-49 years old who are low income and have no health insurance. Limited diagnostic procedures are available if indicated.
- **Tuberculosis Program:** For treatment and screening of both latent and active tuberculosis. PPD skin testing is available by appointment on Mondays, Tuesdays and Fridays. Medication is provided for the treatment of latent or active tuberculosis free of charge.
- **Women's Health Check:** Serves women ages 50-64 who are 200% or below poverty level who have no health insurance. Provides health screening exam, which includes a breast exam and Pap smear when indicated and free mammograms. Limited diagnostic procedures are available if indicated. Appointments are required.

The Family and Community Health staff at the Panhandle Health District is focused on providing services that help prevent health problems, such as consultation, education, clinics and screening for health problems that can be prevented or improved by early detection and intervention

The PHD staff works in cooperation with other community services such as private medical services, hospitals, pharmacies, social services educational services, dental services, voluntary service organizations and local and state agencies.

The PHD clinical staff provides exceptional health care and services for all ages in the community from newborns to the elderly.

For more information on PHD services, please contact your local PHD office.
